About AnnaHiking

In 1991 we visited Greece for the first time. Our love for the country, the culture, the climate, the food, the language and the Greek has grown ever since. We feel at home here and want to communicate this feeling to others.

Many people are familiar with the Greek “islands with beautiful beaches”. Many islands also boast a splendid inland with historical paths, ideal for hiking. Andros is such an island with much more on offer than beaches alone, and we’d love to introduce it to you.

We explored several hiking routes and described them in detail. We regularly revise the routes and the description where necessary. As an individual traveller we offer you these descriptions together with GPS-tracks and marked detailed maps, so you can find your way easily. We also offer you an information package with background information, tips for the best meals and several other useful trivia.

The tour location

General tour information

Andros is an island in the Cyclades and is situated in the Aegean Sea. You can reach it easily from Athens.

On October of 2015 the European Ramblers Association ERA certified [the Andros Route](#) (100 km length) as [Leading Quality Trail/Best of Europe](#). Our walks follow this Andros Route as much as possible.

It's a mini-trekking taking in 4 locations. Every day the hike ends at the overnight accommodation. Sometimes a taxi will take you to the start of the walk.

We made a 9-day program, because in that way we could include the walks we personally value the very best. Should your time be limited, you may choose yourself which walks you

want to leave out. Should you have more time, than you may make more walks from every accommodation and/or add some extra free time.

The net walking time is mostly between 3½ and 5½ hours (excluding the breaks). Some walks can be shortened or extended. Do enjoy the marvellous views, the many streams and the rich flora!

The walks take place on ‘stenès’ (paved walled paths), country roads and paths. You walk alternately through green and rocky terrain. The paths are in good condition and excellently marked. There may be loose stones though and some parts may be steep.

We thus recommend you to start the tour well trained and prepared with well worn-in ankle-high walking boots.

It’s a tour for active people that desire peace and nature and want to enjoy one of the finest European hiking routes.

Modular set-up: extensions

The arrangement can be extended with [extra walks](#) and free days in every accommodation.

The tour may very well be combined with one of our hiking tours on Sifnos (new!), Naxos and Santorini. Several ferries connect the Cyclades islands. See the [possibilities on the Cyclades](#) on our website.

Finally you can combine the arrangement with (parts of) other tours we offer. We’ll gladly help you with the logistics.

For all your wishes: ask for an estimate!

About the Cyclades and Andros

The Cyclades are situated in a circle (‘kyklos’) around the holy island Delos or Dilos. The legend tells us that Apollo and Artemis were born here, so Delos was the religious centre of Ionia in the 7th century B.C. The current capital is Ermoupoli.

Nowadays the Cyclades are famous for their square white houses with blue doorposts and window frames.

Andros is the most northern island of the Cyclades. It is the second biggest of the archipelago with a surface of about 380km². It’s quite mountaneous; the highest summit is almost 1000m altitude.

Most of the Cyclades are quite dry, but on Andros you’ll find lots of water; it’s also the greenest island of the archipelago. All year through you’ll encounter waterfalls, rivers and streams. The Sariza springs are so abundant that the excellent water is bottled here.

There are also wonderful arched bridges and elegant pidgeon towers.

The island was inhabited since the Neolithicum (4000 B.C.), and flowered in several periods. The Agios Petros tower (on one of the walks) is from the Hellenistic period, 400-300 B.C.

There is no airport on Andros, but it's close to Athens (2 hour by ferry boat from Rafina). It is a quiet island, without large-scale amusement. It mostly attracts those who love peace and nature; the visitors are mostly Greek and there is little foreign tourism.

The organisation [Andros Routes](#) maintains the existing paths, opens new routes and marks and describes them. They issued a booklet (Hiking on Andros) and a detailed Anavasi hiking map.

The climate on the Cyclades is gentle. The days are warm early in the year, but the spring nights are still cool. In autumn the day and night temperature is around 20°C. Short showers are to be expected in spring and autumn.

Also heavy winds are possible. In summer they cool you down, but in spring and autumn you may find it sometimes chilly. Due to the sun the temperatures are very pleasant from April until the end of October. Normally shorts and t-shirts are appropriate walking clothes, with a blouse or light sweater for the cooler moments.

The accommodations

You stay in small-scale hotels and apartments in the fisherman's village of Ormos Korthiou, Chora Niborio, beach village Batsi and the harbour of Gavrio. In the standard accommodation in Ormos Korthiou you take breakfast in a nearby café or in the apartment, in all other accommodations breakfast is served. Depending on the flight schedule you might have to spend the first or last night in an hotel in Rafina harbour (surcharge).

In all locations you may also choose a more luxury accommodation with swimming pool at a surcharge. The standard accommodation in Gavrio has a swimming pool.

All accommodations are near a beach and several cosy bars, cafés and tavernas. Bakery shops and supermarkets are close by for lunch shopping.
