About AnnaHiking

In 1991 we visited Greece for the first time. Our love for the country, the culture, the climate, the food, the language and the Greek has grown ever since. We feel at home here and want to communicate this feeling to others.

Many people are familiar with the Greek beaches: is there more? Sure! The mountainous mainland offers the traditional way of living, close to nature. Here you won't find beaches, but gurgling streams with waterfalls, small houses hugging the mountainside and welcoming people.

We explored several hiking routes and described them in detail. We regularly revise the routes and the description where necessary. As an individual traveller we offer you these descriptions together with GPS-tracks and marked detailed maps, so you can find your way easily. We also offer you an information package with background information, tips for the best meals and several other useful trivia.

The tour location

General tour information

The Pindos mountain range runs along the borders of Epiros and Thessalia provinces in the northwestern mainland of Greece.

The net walking time of the trekking is between 4½ and 7 hours (excluding the breaks). You may extend your stay in each accommodation; we offer more hikes from the Astrakas refuge, Tsepelovo and Monodendri. Only in the last

accommodation in Kipi you'll stay for 2 nights, because this hotel has a minimum stay. You'll be brought back after your walk from Monodendri by taxi.

Most walks are on narrow and sometimes steep mountain paths. Generally the paths are cleared and well marked. You will find loose stones on your path and steep drop-offs on the sides. You must be sure-footed and fit and not prone to vertigo.

As the markings are not always well visible (stones turned by animals etc.), the **use and knowledge of a GPS is obligatory**. The tracks are provided and can be loaded in a GPS device or in a smartphone.

We advise you to start the trip trained with well worn-in ankle-high hiking boots. Good shoes enable you to walk without worries about your feet so that you can fully enjoy the surroundings.

It's a hiking tour for active people who love peace and nature and who are not afraid of a heavy ascent or descent.

Modular set-up: extensions/alterations/abbreviations

The arrangement can be shortened by starting the tour in Elafotopos or Monodendri. You may extend the tour with walks and free days in the Zagoria.

You might also stay some days in Ioannina to explore the city and her environment.

You may also travel on to another destination in Greece, like the [Corfu Trail](#) or the [Olympos](#). We'll gladly advise you about the logistics.

For all your wishes: ask for an estimate!

Walking in the North Pindos

The area has been inhabited since 5000 b.C. In the 4th century b.C. many fortifications were built, but little is still visible. The golden age was from 1200 to the start of the Turkish domination in 1430. The famous Plakida or Kalogeros bridge was only built in 1865, when the Turks had as good as left.

The inhabitants lived from agriculture, cattle breeding and trade. Only recently has some income been gained from (mostly Greek) tourism. Still not many people live here, especially not in winter. In summer Greek daytrippers and weekend guests come to admire the bridges and enjoy the fresh air and lovely food.

Wolves and bears still exist in the woods, although the chance of an encounter is very rare.

The North Pindos is famous for its Zagoria villages with their stone houses and paved mule paths (kalderimia), the characteristic stone formations that look like piles of coins (schists) and the Vikos Gorge.

You walk along and above the

Vikos gorge. According to the Guinness book of records this is the deepest gorge in the world: 900m deep at the narrowest point. (Deeper gorges like the Grand Canyon are not this narrow.)

During the walks you'll view the Tymfi mountain range with the highest peaks Astrakas (2430m) and Gamila (2495m).

The accommodations

You stay in lovely guest houses and small-scale hotels built in the Zagorian style: thick stone walls, cool in summer (but chilly in spring and autumn!). All accommodations have a courtyard or patio inviting you to relax. The hotel in Monodendri boasts a small swimming pool.

One night is spent in a mountain refuge at 1900m altitude. Here you sleep in dormitories with 4 bunk beds, so possibly 8 sleepers, and shared facilities with a (cold) shower.

Most accommodations offer an excellent local cuisine where the food is prepared with love and expertise. The Tsepelovo guest house does not offer meals, but you'll find several tavernas in the village.

The last accommodation in Kipi has

Day to day program

(You can download the elevation profiles separately.)

Note: walking times mentioned are net times without breaks.

Day 1: To Aristi

You again leave the road and climb the Grabala summit by the gently ascending slope. On this spot an important battle has been fought in the Balkan War; later you'll pass the monument for the fallen.

From the summit the views are magnificent: over the plateau of Pedina and the Aaos river and past the Vikos gorge over the Astrakas plateau and summit. Then you descend to the asphalt road with the afore mentioned monument. You follow a cattle path around the hill, cross the asphalt road and enter Elafotopos by a country road.

After about an hour walking and 350m further down you arrive at stream level and sometimes even walk through the rocky stream bed. Mostly, however, the path is good. From the Astrakas refuge: circular walk Astrakas summit (PZ09091a)

First you descend a while towards Papingo and then veer to the left towards the Sheep Cave ("Provatina"). You may visit the cave and return, it's not really worth the while. Better keep to the left until you've reached the Astrakas summit with 360 degrees view over the Timfi mountain range! If the weather's clear you may see the sea at Igoumenitsa and the Nemertsika on the Albanian border. Past the summit you descend through rocky terrain towards the Astrakas plateau. overnight stay: Astrakas hut

From Tsepelovo: circular walk Vikakis river (PZ10101a)

ascent/descent: 260m

overnight stay: Tsepelovo

From Tsepelovo: circular walk Founko plateau (PZ10103c)

You descend past the village Vitsa by the 'Vitsa Steps'. You reach the Vikis river near the Misiou bridge, the guardian at the entrance of the Vikos gorge. You follow the gorge north. The stream bed is dry from mid/end July, otherwise you'll have to swim!

You ascend by the 'Monodendri Steps' until you've reached the square of Monodendri.

walking time/distance: 3h30' / 7,9km

You walk back through the meadow and then about 1 kilometer of asphalt road. You head back into the forest and descend by forest paths back to Monodendri.

walking time/distance: 3h20' / 9.5km

ascent/descent: 300m

overnight stay: Monodendri
